

Name: _____

Checking understanding of percentages

Task A: Percentages, fractions and decimals

1) What proportion of the grid is shaded?

Give your answer as a percentage and a fraction.

2a) What proportion of the grid is shaded?

Give your answer as a percentage and a fraction.

2b) What percentage is shaded on the 100 grid on the right?

Shade the same percentage on grids A to G

D

--	--

A

B

C

Task B: Percentages of amounts

1) Work out the following:

a) 20% of 640

b) 30% of 520

c) 15% of 8

d) 35% of 30

2a) Who do you think is correct? Why?

Aisha

Finding 10% of a number is easy. You just divide it by 10.

Finding 20% of a number is easy. You just divide it by 20.

Andeep

Finding 50% of a number is easy. You just divide it by 50.

Izzy

2b) What percentages would the incorrect calculation(s) actually find?

3) Below are six students' different strategies for finding 75% of 250. One of them is incorrect.

Whose strategy is incorrect?

Explain the method used by each pupil.

Andeep

$$250 \div 100 = 2.5$$

$$2.5 \times 75 = ___$$

Aisha

$$250 \div 2 = 125$$

$$125 \div 2 = 62.5$$

$$125 + 62.5 = ___$$

Sofia

$$250 \div 10 = 25$$

$$25 \times 7 = 175$$

$$25 \div 2 = 12.5$$

$$175 + 12.5 = ___$$

Jacob

$$250 \div 4 = 62.5$$

$$250 - 62.5 = ___$$

Sam

$$250 \div 4 = 62.5$$

$$62.5 \times 3 = ___$$

Lucas

$$250 \div 75 =$$
