

Inverse proportion in context

1 Two variables are inversely proportional if there is a constant multiplicative relationship between one variable and the _____ of the other variable. Tick **1** correct answer

- ☐ different
- ☐ division
- ☐ opposite
- ☒ reciprocal

2 Which of the following is a graph representing inverse proportion? Tick **1** correct answer

☐

☒

☐

☐

3 Which of the following situations illustrate an inversely proportional relationship? Tick **2** correct answers

- ☐ The number of scones made and the amount of milk needed.
- ☐ The time taken to read a book and the number of pages.
- ☒ The time taken to complete a lap of a track and the speed.
- ☒ The number of pieces a plank of wood is cut into and the length of the pieces.
- ☐ The height of a wall and the number of bricks used.

- 4 A and B are inversely proportional. The missing value is 15. Fill in the blank

A	B
6	5
2	

- 5 A and B are inversely proportional. The missing value is 4. Fill in the blank

A	B
3	10
7.5	

- 6 It takes 3 people 4 days to build a wall. It should take 5 people 2.4 days to build the same wall. Fill in the blank
