

Direct proportion in context

1 Graphs showing direct proportion have a _____ gradient with an intercept of 0. Fill in the blank

2 Which of the following graphs does NOT show direct proportion? Tick **1** correct answer

☐

☐

☐

☐

3 Which tables show that A and B are in direct proportion? Tick **2** correct answers

A	B
4	1
18	4.5

☐

A	B
1.2	3.6
2.2	4.6

☐

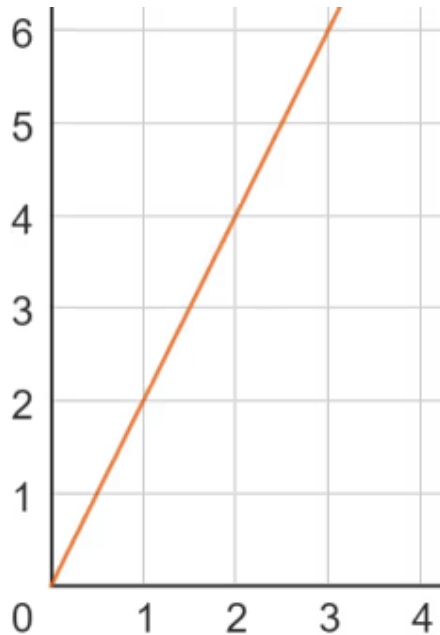

A	B
2.5	100
3	120

☐

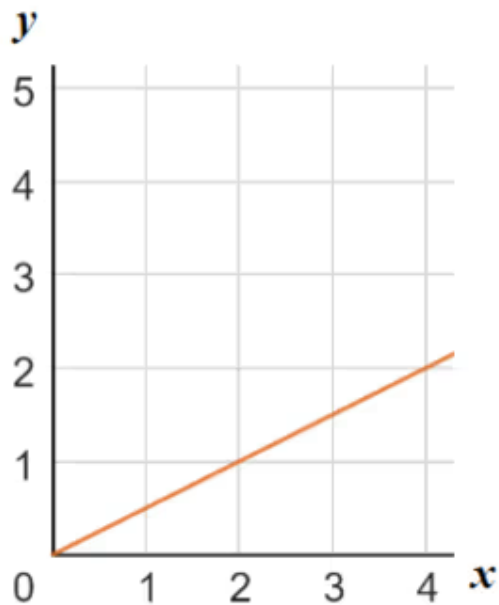

A	B
24	6
25	5

☐

- 4 The constant of proportionality represented by this graph is _____.
Fill in the blank

- 5 Which of the following is NOT true of this graph? Tick **3** correct answers

- ☐ The constant of proportionality is 0.5
- ☐ The gradient of the line is 2
- ☐ The constant of proportionality is 2
- ☐ The graph does show a directly proportional relationship.
- ☐ The graph does not show a constant positive gradient.

6 What are the missing words in this statement? A graph representing direct _____ has a _____ gradient and an _____ of _____. Tick **1** correct answer

- ☐ relationship, constant positive, intercept, one
- ☐ proportion, changing positive, intercept, zero
- ☐ proportion, constant positive, intercept, zero
- ☐ proportion, constant negative, intercept, zero
- ☐ relationship, constant negative, intercept, one
